All of our staff have received training in Child Protection, Equality & Diversity, Risk Assessment and the Fostering Regulations.

STANDARDS OF CARE

At Choice Fostering, we believe that every child matters and that the needs, welfare and best interests of children and young people are paramount.

Choice Fostering will define the parameters and expectations of our Standards of Care throughout all our documents, but in particular, our; Policy & Procedures Manual, Foster Carers Handbook, Foster Carers Fostering Agreement and Employee Handbook.

At Choice Fostering we believe that:

- ★ Each individual has an inherent right to develop their potential, regardless of previous life experience.
- ★ Children and young people have a right to be looked after by adults who offer respect, concern and affection.
- ★ Adults need to respect the significance of the child's birth family, their race, culture and religion.
- ★ Children and young people have the right to achieve the best possible outcomes in line with Every Child Matters.
- ★ Young people should be suitably prepared for leaving care: leaving their placement with savings, educational attainment to support their chosen career and suitable independence skills.
- ★ The agency aims to be managed in an ethical, effective and efficient manner.
- ★ All staff, Foster Carers and other adults who come into contact with children through Choice Fostering are subject to appropriate checks and vetting procedures.

In addition, Choice Fostering will:

- ✓ Comply with all the relevant legislation and strive to exceed the National Minimum Standards at all times.
- ✓ Ensure the rights of children are promoted in line with the UN Convention on the Rights of The Child.
- ✓ Child protection procedures are followed robustly at all times to ensure children and young people are safeguarded.
- ✓ Work in partnership with the Local Authority to identify the individual needs of the child and then deliver that care.
- ✓ Foster Carers do not use corporal punishment, are skilled in behavioural management and do not do anything that demeans, degrades or humiliates the young person in their care.
- ✓ Equality & diversity is always promoted, through recruitment, assessment, matching and placement support.

SERVICE PROVISION

Choice Fostering caters for children and young people, from unborn children (and their mothers) to the age of 18 years, of either gender and a variety of cultural and religious backgrounds. We work in partnership with Local Authorities to ensure the provision of a wide range of safe, secure and appropriate foster care options for children and young people with Foster Carers.

Mainstream Fostering Emergency Placements are provided at short notice and supported by a 24-hour emergency response service.

Bridging Placements are a short term, flexible placement, focusing on ensuring the most sensitive transition for the child into and from the placement.

Short Term Placements provide care for a few days, weeks or months while plans are being made for the child's long-term future.

Long Term Placements provide permanent care for a child up to and into adult independence where adoption is not an option. Permanency is promoted and encouraged to offer a stable home for life.

Sibling Placements are placements where siblings are either placed together or separately, where we would facilitate contact between siblings.

Single Placements have highly experienced Carers looking after children and young people who have very complex needs and / or challenging behaviour.

Respite Breaks are where Foster Carers provide a break for parents and additional support where their own support networks are lacking. This can be an overnight stay or a couple of weeks.

Unaccompanied Children placements are for unaccompanied asylum seekers. Support packages include immigration; supporting religious, languages and cultural needs; integration with community and faith groups.

Staying Put placements enable young people who have settled into a placement to be able to stay in place upon achieving their 18th birthday and beyond, if this is their wish and it is in their best interest to do so.

All our placements are monitored to secure positive outcome against our every Child Matters' Agenda:

- ✓ Be Healthy
- ✓ Be Safe
- ✓ Enjoy and Achieve
- ✓ Make a Positive Contribution
- ✓ Achieve Economic Wellbeing

THE MATCHING PROCESS

“We recognise and respect that every child and young person is an individual.”

At Choice Fostering we ensure that all placements are carefully ‘matched’ to ensure that the needs of children and young people are best met by appropriate Foster Carers based on a combination of their level of skills and experience.

Referrals are made through close liaison with Local Authority colleagues and Foster Carers to ensure that the child’s needs are fully met through the best possible match.

All matches take into consideration a Location Risk Assessment to safeguard each young person against potential risks of Radicalisation, Gang Involvement and Child Sexual Exploitation.

At Choice Fostering, we take the decision to place a child very seriously and all decisions to place are overseen by Choice Fostering’s Registered Manager to ensure we have made the best possible match for the child and Foster Carer.

Children and young people placed with Choice Fostering are never expected to share a bedroom with another fostered child or child of the Foster Carer, other than where they are siblings and this has been agreed with the Local Authority.

SUPPORTING CARERS TO CARE FOR CHILDREN

Choice Fostering's Supervising Social Workers are trained to recognise that despite not having case management responsibility for the child, it is their responsibility to ensure that the needs of the child are paramount.

Monthly supervision meetings take place between the Supervising Social Worker and Foster Carers, as well as additional support visits where necessary. Supervision meetings focus on positive developments for the Carers and children, as well as areas of concern. The Supervising Social Worker also has responsibility for assisting the Carer in their career development and identifying training and development needs and methods for developing the Carer's skills and knowledge. Foster Carers are supported by their supervising Social Worker in undertaking their training support and development standards Induction Portfolio.

Supervising Social Workers ensure that they regularly see and speak with children and young people alone when visiting the placement.

Support group Meetings: Regular Foster Carer Support Group Meetings are held to enable Foster Carers to meet and socialise together, share good practice ideas, develop peer support and receive information from the agency. These meetings are facilitated by Choice Fostering staff and Management.

Emergency Support: Choice Fostering provides a 24/7, 365 days a year on-call service to Foster Carers. This service also provides a family placement service for Local Authorities for the placement of children in an emergency.

Annual Review: All Foster Carers undergo an annual review to ensure that they continue to be suitable to hold registration and approval as a Foster Carer. The Review reports ensure that all statutory requirements are fulfilled and that Foster Carers have the opportunity to evaluate their practice and development and to set new goals and action plans.

Policies & Procedures: Foster Carers have access to a comprehensive Fostering Handbook, which is provided upon approval. The handbook contains information, policies and procedures on all aspects of the fostering task and is updated regularly to ensure it remains a relevant reference document.

Record Keeping: Foster Carers are expected to maintain records of events and information pertaining to the child or young person in placement. Foster Carers also contribute to a monthly report for the Local Authority detailing the progress made by the child or young person in achieving 5 key Every Child Matters outcomes.

Fostering Network Support: The agency is currently using 'Fostering Network', which is a confidential helpline for Foster Carers and prospective Foster Carers which provides impartial advice information and signposting on the broad range of issues and concerns with regards to foster care.

Finance: All registered Choice Fostering Foster Carers receive an allowance paid every week

during placement. The level of this allowance is dependent on the type of placement and experience of the Foster Carer. All Foster Carers are self-employed and as such must pay their own tax and National Insurance which is a nominal amount. Financial guidance is offered to Carers, this is found in The Fostering Handbook.

Foster Carers are entitled to 2 weeks paid respite which could be used in a situation where they do not have children or require support. The agency also contributes £350 pounds per year for holidays abroad.

Data Protection and GDPR: Choice Fostering take Data Protection seriously and are registered as Data Controllers with the Information Commissioner's Office and ensures that our data and information sharing systems are secure and that our data management and storage systems are compliant with our registration. With the commencement of the GDPR, we have ensured that our systems and practices are compliant.

Having Fun: at Choice Fostering we recognise that taking care of other people's children is a serious business and can be challenging and at times stressful. We believe that it is important to come together informally to support our Carers and de-stress.

Choice Fostering encourages Foster Carers to get together and socialise. We also organise regular social events where Carers can have fun and share experiences with like-minded people.

SUPPORTING CHILDREN & YOUNG PEOPLE

Our Supervising Social Workers speak to all children and young people in a Choice Fostering placement at least quarterly. In practice, our children are seen far more frequently than this by Supervising Social Workers. This is of course in addition to the placing Social Worker's duty to visit children regularly.

Choice Fostering believes that if appropriate packages of support are available to Foster Carers, then children and young people are better supported to live in a family environment. Our Services are designed to be flexible and responsive.

The range of services which are available for children & young people include:

- ★ Assistance to pursue a hobby or interest including holiday activities

Participation Groups:

The voice of the young person and their participation in the agency "Steering Group" supports the development of Choice Fostering in an important way. We have facilitated a bi-annual meeting of the children who are in our care. This gives them a chance to talk to us directly about their feelings towards the agency and what we can do to improve our services.

RECRUITMENT, ASSESSMENT & APPROVAL

Choice Fostering is committed to the recruitment of Foster Carers who can meet the needs of children and young people through the provision of high-quality care. All prospective Foster Carers who make an enquiry will be subject to rigorous assessment and vetting procedures.

The Panel is also responsible for conducting reviews, and recommendations for de-registration of Foster Carers.

The final decision for approval is made by the Agency's Decision Maker who is social work qualified. If Foster Carers are unhappy with the final decision, they will have a right to appeal.
